**************************
It is the student’s responsibility to officially change their major, to request a Degree/Certificate Evaluation Progress Report, and to apply for Graduation Application for Degree/Certificate. These links/forms are located under “Academic Planning” section in WebAdvisor. You will need to know your catalog year and, for this major, you will need to use the following major code:

CISCO CCNA PREPARATION (F.8174.CA)

This document is available online. Go to: www.fresnocitycollege.edu/counseling and select “Major Requirements”. Refer to the FCC current catalog and addendum for the most up-to-date information.

Total Major Requirements: 12 Units

*****************************************************************************************

NOTES:

1. This option is to prepare students for the CISCO Certified Network Associate Certification Test. By completing this option, a student will have basic knowledge of network hardware, including routers. The program is available as part of the CISCO Networking Academy Program. This CCNA certification (CISCO Certified Network Associate) indicates a foundation in and apprentice knowledge of networking for the small office/home office (SOHO) market. CCNA certified professionals can install, configure, and operate small LAN and/or WAN networks. For more information contact either Daniel Himes (442-4600, ext. 8515), or Bruce Miller (442-4600, ext 8517).

2. Certificate of Achievement requires completion of the major (12 units) with a “C” or better grade in each course.

The material in this publication has been prepared as carefully as possible. Fresno City College does not assume responsibility for inaccuracies or changes in the information contained herein.
