Notes:

- 1. The Associate in Science degree in Child Development is designed to prepare students to work with young children in a variety of early care and education settings. Completing the requirements for the Associate in Science degree will fulfill the requirements to obtain the California Child Development Permit at the Teacher level which qualifies the student to work in a State of California funded child development center or preschool.
- 2. Some of the above courses may have prerequisites. See the catalog or schedule of classes.
- 3. The Associate Degree requires completion of the major (30 units) with a "C" or better grade in each course. Students must complete one of the three different general education patterns: option 1 - Fresno City College General Education, option 2 -CSU GE Breadth- California State University General Education, OR option 3 - IGETC - Intersegmental General Education Transfer Curriculum for a total of **60 semester units minimum** with a 2.0 or better GPA.

Additional advisement for K-12 teaching and/or substitute teaching:

Students wishing to become K-12 teachers and substitute teachers may now use specified coursework completed with a grade of B or higher in lieu of or in conjunction with the CBEST to demonstrate proficiency in the basic skills of reading, writing, and math.

The CCTC has stated that qualifying coursework taken at a community college would fulfill this basic skills demonstration of proficiency. Coursework must meet all the following requirements:

- Courses must have been taken at a regionally accredited college or university for credit
- Passed with a grade of B or better
- Be degree applicable, and
- At least 3 semester units (or equivalent quarter units)

Qualifying coursework does not include professional development or continuing education units or in-service training or workshops.

Qualifying coursework includes:

- For reading proficiency: a course in critical thinking, literature, philosophy, reading, rhetoric, or textual analysis.
- For writing proficiency: a course in composition, English, rhetoric, written communication, or writing.
- For mathematics proficiency: a course in algebra, geometry, mathematics, quantitative reasoning, or statistics.

A course that does not fall within the indicated areas may still qualify with additional letter of explanation from the registrar or relevant department chair of the college or university. This must state that a course passed by the applicant covered reading, writing, or mathematics at the same level as one of the listed courses. Such a letter could also attest that a single course sufficiently indicates proficiency in reading and writing combined.
