**Notes:**

1. Psychology is a useful major for students with a variety of interests and career goals due to its emphasis on critical thinking, the scientific method of inquiry, and the interactive role that biological, psychological, developmental, and sociocultural factors play in affecting human behavior and mental processes. The associate and the bachelor's in Psychology do not train a person to work as a professional psychologist.
2. Some of the above courses may have prerequisites; see the catalog or schedule of courses.
3. The *Associate Degree for Transfer* requires the completion of the major (19-20 units) with a "C" or better grade in each course plus the completion of the General Education requirements (either CSU GE Breadth or IGETC) for a total of **60 CSU-transferable semester units minimum** with a 2.0 or better GPA.
4. Some courses may not have an associated C-ID, please see catalog or counselor for more information.
