Notes:

1. This option is to prepare students for the CISCO Certified Network Associate Certification Test. By completing this option, a student will have basic knowledge of network hardware, including routers. The program is available as part of the CISCO Networking Academy Program. This CCNA certification (CISCO Certified Network Associate) indicates a foundation in and apprentice knowledge of networking for the small office/home office (SOHO) market. CCNA certified professionals can install, configure, and operate small LAN and/or WAN networks. For more information, contact either Daniel Himes (442- 4600, ext. 8515), or Bruce Miller (442-4600, ext.8517).
2. Certificate of Achievement requires completion of the major (18 units) with a "C" or better grade in each course.
