What is EARLY ALERT?

Early Alert is a program designed as a timely intervention for students who are observed to be experiencing academic difficulty each semester. The program emphasizes collaborative efforts between students, their instructors, and campus counselors. Due to things outside of the students’ control, the program specifically alert students to seek assistance as needed in order to be academically successful. Check out how the process works:

**STEP 1**
Instructors refer students via the Early Alert System available online at:

http://www.fresnocitycollege.edu/earlyalert

**STEP 2**
Students are notified via email that they have been referred to Early Alert.

**STEP 3**
Students are encouraged to make an appointment with an Early Alert Counselor. The EA Counselor also receives a list of referred students and will reach out to students who have not made contact.

**STEP 4**
Students will meet with a counselor to discuss academic goals and will be referred to appropriate Support Services.

**STEP 5**
- DSP&S
- Financial Aid
- Tutorial Center
- Psychological Services
- Writing & Reading Center
- Child Development Center
- Off-Campus Resources

**SUCCESS!** If students who have been identified as Early Alerts go through this process, they are likely to increase their probability of succeeding. Instructors may also check the status of any referred students by logging back onto the Early Alert System.
